

III International Scientific Conference PLAMIC2022
**«Plants and Microbes: a Biotechnology of
the Future»**

Simferopol

3-7 October 2022

Simferopol is the heart of Crimea (formerly the Tauric Peninsula). The city stands on the rocks of Scythian Neapolis, the capital of the Scythian kingdom of the times of the Golden Horde and Aqmescit — a town that emerged here during the Crimean Khanate. Scientists and students from all over the world are welcome to this beautiful and modern city to discuss the latest achievements in the following fields:

1. Plant biotechnology, including micropropagation, *in vitro* cultures, genetic transformation, breeding, bioinformatics and phytoremediation.
2. Microbial biotechnology, including environmental and agricultural microbiology and bioinformatics.
3. Plant-microbe symbioses, including natural and artificial symbiotic systems: legume-rhizobium, actinorhizal and associative symbioses, arbuscular mycorrhiza, cyanobacterial symbiosis, metagenomics and environmental biotechnology.

The event is organized by the Ministry of Science and Higher Education of the Russian Federation, the Russian Academy of Science and the World-class International Scientific Center “Agrotechnologies for the Future”.

The Registration fee is €50 for in-person participants (€25 for students, young scientists and specialists under 35 years old) and €20 for virtual participants.

Please send an e-mail, titled “REGISTRATION”, with the following information:

- your name and job position (or the year of study for undergraduate and PhD students);
- your department and organization with the address;
- your presentation title;
- the type of participation (personal or virtual),

to PLAMIC2022@mail.ru until the end of February 2022.

You will receive the confirmation and further details about payment and your abstract submission. Late registration is available for an additional charge.

It will be our pleasure to help you organize your trip, including flights and accommodation. For further information you can write to:

PLAMIC2022@mail.ru (the Secretariat);

zilyaver@mail.ru (Dr. Zilya Vershinina).
